### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **a) In the Title**

After "Structure", insert -- Including InGaAsP Active Layer Not Less Than 3.5  $\mu\text{m}$  and InGaAsP and InP Cladding--

### **Reasons for Allowances**

The following is an examiner's statement of reasons for allowance: considering the criticality of the active layer width for reducing lateral high-order mode, made clear by the applicant in the Remarks section in pp. 18-19 of amendment received in 28 June 2005, the features in claim 1, lines 3-5, the active layer of InGaAsP which has a width of not less than 3.5  $\mu\text{m}$ , can not be found in the prior art of record. The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
